

The second [Industrial Robotics Workshop](#) is the main event of industrial robotics in Russia. The feature of the workshop is the applied nature of the event: not regular debates, but the joint development of specific recommendations on how to effectively and profitably robotize production.

Goals of the event:

- ✓ tell the industrialists about the available technologies of robotics and instruments for financing robotic projects,
- ✓ to establish a dialogue between those who create robotic solutions and those who can benefit from their implementation in their production.

Objectives of the event:

- Share practical experience in the implementation and use of robots in real production plants;
- Tell about initiatives and government programs that can help enterprises to automate their own production.;
- Build effective communications between market participants: suppliers and users of robotic solutions, representatives of the engineering and scientific community, authorities and development institutions;
- Demonstrate the existing technological capabilities of the robotization of manufacturing enterprises.

Workshop organizer:

- Russian Association of Robotics

Partners:

- Ministry of Industry and Trade of Russia;
- Industry Development Fund;
- Technology Development Agency;

The first **Industrial Robotics Workshop** was held on April 19, 2018. More than 150 representatives of enterprises and robotic companies took part in it. About how it was, you can see [here](#).

EVENT PROGRAM

9:30-10:00	Registration of participants, coffee break
10:00 – 10:15	Greeting
10:15 – 11:45	<p>Use cases of industrial robots</p> <p>Practical experience of implementing and using robots at real-life industrial enterprises</p> <ul style="list-style-type: none"> — Why do companies decide to implement robots? — How to find a contractor? — What impact did robotic automation have on production process efficiency? — Common mistakes and «pitfalls»: how to avoid them? <p>Speakers:</p> <ul style="list-style-type: none"> — Andrey Mukovnikov, Director of "DRSU Prikamye" Ltd — Yury Nikitin, Director of the Design Bureau, CJSC SESPEL — Yuri Weinstein, Technical Director of MZ TONAR Ltd — Fabrizio Anzalone, Head of business development, Asia and Pacific countries, Comau
11:45 - 12:15	Coffee break
12:15 - 13:45	<p>Help!</p> <p>Government support for those who resolved to robotize their manufacturing</p> <ul style="list-style-type: none"> — What support measures can companies use to upgrade their manufacturing facilities? — What support and development measures does the robotics industry need? <p>Speakers:</p> <ul style="list-style-type: none"> — Vladimir Dozhdev, Director of the Department of Digital

	<p>Technologies of the Ministry of Industry and Trade of Russia</p> <ul style="list-style-type: none"> — Mikhail Ivanov, Director of the Department of Machine Tool Building and Investment Machine Building of the Ministry of Industry and Trade of Russia — Yuri Abramov, Director General of Technology Development Agency a.i. — Anna Simanovskaya, Head of the Consultation Center of the Industry Development Fund — Alisa Konyukhovskaya, CEO of the Russian Association of Robotics
13:45 - 14:30	Coffee break
14:30– 16:00	<p>Robots application in the food processing industry</p> <ul style="list-style-type: none"> — What operations can robots perform at food industry companies? — What to robotize and not robotize? — How to assess the efficiency and cost effectiveness of implementing robots in the manufacturing process? <p>Speakers:</p> <ul style="list-style-type: none"> — Evgeniy Korchevoi, Director of the Department of Agricultural, Food and Road and Construction Machine-Building of the Ministry of Industry and Trade of Russia — Mikhail Prokopiev, Director of the Department of robotic equipment, Weber Comechanics Ltd — Igor Ryzhenkov, Director of Robovizard Ltd — Oleg Plyushchik, General Manager of Omron Electronics Ltd — Julia Zotova, Commercial Director, TOZ-Robotics Ltd
16:00 – 16:15	Break
16:15 – 16:45	<p>Robotics market: threats and opportunities for Russia</p> <p>Presentation of the research of RAR on the world and Russian markets of robotics, measures for the development of the robotics industry in Russia and abroad</p>

II Industrial Robotics Workshop
Moscow, Russia
22 November 2018

	Speaker: — Alisa Konyukhovskaya, CEO of the Russian Association of Robotics
16:45 – 17:00	Break
17:00 – 18:00	Meeting of the Russian Association of Robotics Discussion of the Strategy of development of robotics industry in Russia

There is a small **exhibition area** at the workshop, where integrator companies and technology developers in the field of robotics present their solutions.

Contacts:

Organizational issues:

Snezhana Pavlyuk, spavlyuk@abagy.com, +7 (495) 108-46-43

Participation in the business program:

Alisa Koniukhovskaia, ak@robotunion.ru, +7 (916) 884-77-93

Participation in the exhibition:

Dmitry Savin, savin@formika.ru, +7 (963) 970-89-34

Location:

Demo center Abagy Robotic Systems

111250, Moscow, st. Krasnokazarmennaya 12, bldg. 9, 1st floor
